“Cone Zone” tip for the week: Defensive Driving Tips

- Slow down, especially during inclement weather conditions or at night
- Do not follow too closely
- Concentrate on your driving at all times
- Never drive if you are impaired by lack of sleep or being under the influence
- Check your mirrors frequently
- Assume that drivers will run through stop signs or red lights at intersections and be prepared to react
- Keep a watchful eye on pedestrians and pets along the roadside
- Incorporating these defensive driving tips into your everyday driving technique will help you become a better driver. Taking an online defensive driving course or attending a defensive driving school enhances your overall driving knowledge and skills, and increases your awareness and the safety of you, your family and other drivers.
